Name: Zoltán Alföldi

E-mail: [zoltan.alfoldi85@gmail.com](mailto:zoltan.alfoldi85@gmail.com)

Deadline: 2019.05.26.

## 2.1. ACCOMODATION

The already existing Hegedűs Gyula Dormitory consisting of three 6-storey buildings have been expanded with two 9-storey buildings in the area of Széchenyi István University. The building is modern and well-equipped according to XXI. century expectations and requirements. In the multifunctional building, public and multifunctional spaces, lounges have been created that support the inhabitants' cultural, entertaining and scientific activities. The new building wing provides highstandard accommodation as a varied range of services is available on site. The new parts of the dormitory were finished at the end of June 2017, hosting first the athletes of the European Youth Olympic Games. Since then, the Széchenyi István University operates and uses the building as a dormitory.

The aim of the implementation was to create a complex space which is regarded by the students not only as a dormitory but also as a place, where everything is available for them:

learning, entertainment and culture. On the ground floor of the buildings, a reception desk can be found (K1 and K0 reception desks), where entrance gates help smooth entries.

The new buildings are attached to the already existing buildings, hence, all the 5 wings are accessible from inside. In K1 and K0 there are altogether 566 rooms (6 rooms are for students with reduced mobility) for 1120 people. In K0 building, there is 302 rooms and in K1 building, 258 rooms have been constructed. In the two buildings there are altogether 283 bathrooms, that means that 1 bathroom belongs to 1 apartment (2 rooms). The apartment like arrangement of the housing units means that from the entrance hall, entirely separate entrances lead to the bathroom and the toilet. The bathroom and the toilet are used by 4 people, the inhabitants of the two rooms. Each apartment has two rooms with separate entrances. Basically the rooms are equipped with twin beds. Against one of the walls, there are the twin beds and a double door cupboard, while on the other side of the room, there are two desks with chairs. There are also 4 shelves on the walls. In the entrance hall, there is also a cupboard and a refrigerator for the residents.

### 3.1. GYŐR

Győr, this mellow and colourful town is situated half way between Vienna and Budapest, and hosts a vast array of architectural, cultural and natural treasures.

The radial road network of the settlement connects Slovakia from the north, Austria from the west, Lake Balaton from the south and Budapest from the east to the town, the heart of Kisalföld ("The Small Plains"). The Győr-Pér airport opened not long ago makes the town accessible by air as well.

Győr, this mellow and colourful town is situated half way between Vienna and Budapest, and hosts a vast array of architectural, cultural and natural treasures.

The radial road network of the settlement connects Slovakia from the north, Austria from the west, Lake Balaton from the south and Budapest from the east to the town, the heart of Kisalföld ("The Small Plains"). The Győr-Pér airport opened not long ago makes the town accessible by air as well.

Győr, Hungary's second richest town in historic buildings outside Budapest has won Europe-award for the protection of the historic buildings, in acknowledgment of the reconstruction of the Baroque centre of the town. Churches, palaces, museums, characteristic corner-balconies and narrow lanes, all reminders of a historic past, invite visitors to take a walk in the centre of the town.

Our sacral monuments in and around Győr are the memorials of 1000-year-old Hungarian Christianity. Saint István (Stephan) founded the Episcopate of Győr together with the first dioceses one thousand years ago. The Basilica and the Bishop's Castle erected on Káptalándomb (the Chapter Hill) are symbols of the Christianity of West-Hungary.

Győr is a town of festivals where friends of the arts and those who are eager for a high-quality relaxation can find attractive programmes all the year round. This lively settlement with buoyant economic and commercial development offers splendid opportunities also for the representatives of business life to meet here.

Nature embraces and weaves through Győr along the rivers. The medicinal waters, the landscape and the cultural-historical treasures of the environment: the Szigetköz water-land and the Pannonhalma Hills allure people who want to have a rest or relaxation. The Rába-Quelle Bath, the bath of meetings has been recently opened in the city of meetings. Through its services it creates additional excellent opportunities for an active holiday, for recovery or relaxation.
